About Our Prices, Terms, Etc.

Our prices are made as low as good, Dependable Trees and Plants can be grown and sold for, and are based on Cash With Order. We make no charge for Boxes, Bales or Drayage.

Shipping

Give definite shipping instructions with your orders.

Rates

All orders for young lining out stock must call for at least 50 plants which will be supplied at the 100 rate; 500 at the 1000 rate.

Location

Our nurseries are about in the center of Eastern Texas; 50 miles north of Beaumont, on Hobly Highway; 150 miles south of Dallas on the main line of the Southern Pacific R. R. with four fast express and mail trains daily.

Our soil and climate cannot be excelled for growing nursery stock. We are in the natural home of perhaps a greater variety of trees and shrubs than any other section of the United States. Thirty years of actual growing, digging and shipping experience enables us to ship safely anywhere.

Lest you forget we want to especially call your attention to the fact that all our lining out stock either from cuttings or seedlings have been transplanted into the open ground and there grown on without shade or irrigation water for at least one year. Thus making them far more hardier than a soft greenhouse grown plant.

Each season we receive many requests for a line of samples of our stock—so we wish to state to those who wish to see a line of our young nursery trees. We offer these two collections prepaid anywhere at quoted prices. Just order by number. We will do the rest.
